Brief Outline:

These are newly established posts within NHS Greater Glasgow and Clyde Healthboard. The posts are administered for training by NHS Education for Scotland.

The majority of time will be spent in Glasgow Dental Hospital with some sessions in Specialist Salaried Services in Forth Valley.

The posts offer the opportunity to undertake a full-time training programme in the specialty of Oral Surgery based on the Curriculum for Specialist Training in Oral Surgery, leading to the award of a CCST. The curriculum for core training in oral surgery is available on the General Dental Council website www.gdc.org

The post holder will be expected to:
- participate fully in training
- participate in clinical or other service activities eg meetings, service development
- undertake clinical audit and participate fully in clinical governance activities
- participate in some undergraduate teaching
- will have the option to pursue research or other original work as time allows

The Training Programme:

This programme has been recognised by the Specialist Advisory Committee in Oral Surgery for a three-year training period leading to eligibility to sit the Membership in Oral Surgery of one of the Royal Colleges of Surgeons. The post has approval from the Postgraduate Dental Dean and Training Numbers will be awarded to the appointees. All Oral Surgery trainers are on the specialist list. There is no out of hours or on call commitment. Training will also be provided by consultants in related dental specialties and a specialist in the salaried service.

The programme will comprise on a weekly basis approximately seven clinical sessions, with the balance being allocated for study, research, audit, administration and didactic teaching.

Performance assessments and reviews (ARCP) are carried out at the six-month point and thereafter, annually, by the Specialty Training Committee (STC), as outlined in the Dental Gold Guide.

About Glasgow

Glasgow, with a population of around 600,000 is Scotland’s largest city, and one of Europe’s liveliest with a varied and colourful social and cultural life which can cater for
every taste. In 2014 it will host the Commonwealth Games and now has some world
class sporting facilities, including a state of the art velodrome and sporting arena.

Glasgow is a city of contrasts; the bustle of a major commercial and business centre,
the greenery of parks and gardens, and a wealth of art galleries, museums, cinemas
and theatres. Newcomers quickly feel at home in this vibrant and friendly city. Of
particular note is the University’s Hunterian Museum which is the oldest public museum
in Scotland. The Hunterian Art Gallery has important art collections and contains a
reconstruction of Charles Rennie Mackintosh’s own house.

Glasgow has an extensive road and rail public transport system with one of the largest
commuter rail networks outside London and its own underground railway, the ‘subway’,
which serves the University and the centre of the city.

Greater Glasgow and Clyde and the Oral Health Directorate

NHS Greater Glasgow & Clyde introduced single NHS system working on 1st April 2006
and is the largest Health Board in Scotland. The Oral Health Directorate has recently
become part of East Dunbartonshire CHP. The Oral Health Directorate includes the
Dental Hospital which has close working links with the University of Glasgow Dental
School, The University of Glasgow and the Regional Maxillofacial Unit at the Southern
General Hospital. The Directorate also has responsibility for Community Salaried
Dental Services and General Dental Services with an annual budget of some £100
million. Other Directorate responsibilities include:
- Dental Public Health
- Oral Health Improvement
- Acute Hospital Orthodontics

The Glasgow Dental Hospital and School

Glasgow Dental Hospital and School is situated in the centre of Glasgow. It is the main
centre for specialist dental advice and treatment within the NHS Greater Glasgow and
Clyde Health Board area. It also fulfils a similar role for surrounding Health Boards and
serves a population of up to 3,000,000.

The total number of chairs within the hospital is approximately 160. It is an
undergraduate dental teaching school which is consistently rated one of the top
schools in the UK and has an adjoining Postgraduate Centre and Primary Care Out of
Hours treatment clinic. There are strong links with the University of Glasgow and other
hospitals in the region and it has an excellent library with on-line literature search
facilities.

Glasgow Dental Hospital and School comprises the following clinical
departments:

- Restorative Dentistry
  - fixed and removable prosthodontics
  - endodontics
  - periodontology
- Oral Surgery
- Oral Medicine
- Paediatric Dentistry
The Oral Surgery Department

The clinical areas within the Oral Surgery department provide out-patient clinics in the Oral Surgery Consultant Clinic (5 chairs), a treatment facility for the management of emergency patients and more minor oral surgery procedures such as biopsies (7 chairs) and a newly refurbished surgical facility for minor oral surgery with and without sedation, this incorporates 4 spacious theatre type facilities and a large recovery area. All aspects of Oral Surgery are undertaken. Our services are supported by new and state of the art services in oral microbiology and pathology and by our radiology service with both ultrasound and CBCT available on site. We have good working relations with colleagues in all disciplines but particularly with Oral Medicine with whom we share Consultant Clinic facilities.

(*trainers)

Consultant Staff
Prof Ashraf Ayoub Professor/Hon Consultant in Oral Surgery
*Dr Christine Goodall Senior Lecturer/Hon Consultant in Oral Surgery/ Lead Clinician
*Dr Aileen Bell Senior Lecturer/Honorary Consultant in Oral Surgery
Mr Howard Critchlow Locum Consultant in Oral Surgery
