

## ***HIV: Recognition and Diagnosis in Primary Care Settings***

***Friday 15<sup>th</sup> March 2019 1300-1630 (Inc. Lunch)***  
**BMA Edinburgh 14 Queen Street, Edinburgh, EH2 1LL**

This half-day programme in *HIV: Recognition and Diagnosis in Primary Care Settings*: facilitated by NHS Education for Scotland will be delivered by Dr Ewen Stewart and is aimed at primary care staff. We are particularly looking for GPs, GP trainers and trainees as well as Practice Nurses to help us pilot these recently developed resources. The aim is to have a flexible resource that can be delivered in the workplace using practice meetings, tutorials with trainees and other short educational opportunities.

**The aim** of the programme is to increase recognition and diagnosis of HIV in Primary Care and will cover:

- Latest HIV Epidemiology
- Who to test for HIV and how to raise HIV testing with people you are seeing
- Clinical presentations of undiagnosed HIV
- Antiretroviral therapy

The programme will be interactive using small group working. The group work will be practical and aims to give people skills and resources that they can take back to use in their own work setting.

**Target audience:** Applications are invited from those interested in supporting the ongoing facilitation of this resource as well as those who do not consider themselves experts in this field and are keen to learn more about the recognition and diagnosis of HIV in the Primary care setting.

This pilot training is free of charge and places are limited. It is very important that we have maximum attendance on the 15<sup>th</sup> March so please ensure that if you apply for a place you are able to come. Note your interest as soon as possible by completing the online form at:

<https://response.questback.com/isa/qbv.dll/ShowQuest?QuestID=5312407&sid=NKCxFoVFqR>

**Closing date for registrations is 27th February 2019. Places will be confirmed by e-mail, week commencing 4th March 2019.**
