

Modernising Nursing in the Community

- Are you a nurse working with people in the community?
- Do you manage/lead nurses who work in the community?
- Do you work with/or are you in a team who work in the community?
- Are you involved in service redesign of community nursing services?
- Are you a nurse or a student interested in a career in the community?
- Are you a provider of education for nursing in the community?

If so, then the Modernising Nursing in the Community Toolkit (MNiC) will:

- Make it easy for you to search for relevant evidence, policy and resources in defined areas.
- Save time by illustrating and sharing examples of how other areas have implemented change.
- Provide a unique focus for person centred, safe and effective community nursing.

This toolkit is built on the MNiC framework and contains information, evidence, key resources, examples of good practice and educational contacts to support nurses in their work with people across the lifespan .

Access the toolkit at:

www.mnic.nes.scot.nhs.uk

Welcome to the Launch of the Modernising Nursing in the Community Website

We are delighted to launch this website which is unique in bringing together tools and information to support you and your colleagues in your roles today and in the future.

This website will continue to be developed by and with community nurses in practice, education, research and leadership roles and a range of key stakeholders. The website consists of 3 platforms:

- [Children, Young People and Families](#)
- [Work and Wellbeing](#)
- [Adults and Older People](#)

Each platform illustrates the 12 elements of the framework and will support the delivery of Safe, Effective and Person-centred care in the Community.

We invite **YOU** to provide any feedback by completing the questionnaire or e-mailing MNIC@nes.scot.nhs.uk

What's new

Modernising Nursing in the Community Website Launch

24 January 2012

The Modernising Nursing in the Community website is now launched.
