12.	<b>Pattern of working including any on-call commitment</b>	No on call commitment Monday - Friday	

## DENTAL CORE TRAINING 2025/26

### NHS Scotland

### Edinburgh Dental Institute - Paediatric Dentistry

13.	<b>Educational programme summary</b>	There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual DCT conference. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This is predominantly to fund attendance of DCTs at the compulsory NES Educational events, however funding may be available to contribute to the cost of other courses linked to an agreed PDP. DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects. All DCTs, who have not worked in an Oral & Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course known as Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.
