Registration Deadline:

24 November 2025

Join us for the fourth national webinar as we spotlight the NES Clinical Supervisor Preparation Programme, a key component in building confident, compassionate, and capable supervisors across the nursing and midwifery workforce.

This session will explore how the programme supports individuals to develop the skills, mindset, and understanding needed to deliver inclusive, effective supervision in line with national frameworks.

What to expect:

- Insights into the design and delivery of the preparation programme
- Reflections from those who have completed or facilitated the programme
- Discussion on inclusive supervision, supporting diverse roles, and building supervisory confidence
- Guidance on preparing to be a supervisor and aligning with national expectations

Prior to attending this webinar, we encourage you to access the eLearning resource, "[Clinical Supervision: Supporting You to Develop and Thrive in Your Role](#)" in advance (log-in required).
